FROM PRISON GATES TO A NEW LIFE

Re-entry on the Fly

Re-entry Simulation

Anyone familiar with the movie *The Shawshank Redemption* should remember the scenes where Brooks the librarian has trouble adjusting after his release, or the scenes in *Goodfellas* where Henry, Tommy and Jimmy are in that holding room waiting to meet with their parole officers, saw a glimpse of the path someone released from prison must travel. Do you think you can succeed in an area where failure is the norm? Can you navigate all the tasks necessary to re-integrate into society after paying your debt to society? You will have to obtain identification, find a job, find food, meet with your parole officer, and accomplish many small tasks to avoid returning to prison. Join us for a re-entry simulation where fifteen minutes of real time equals one-week elapsed time. Will you be able to avoid the obstacles you will face in your first month after re-entry? Join us for some role-playing fun, and, who knows, you may gain new insight into the re-entry process at the same time.

How to Play the Game

- The game is divided into 4 weeks, each week lasting 15 minutes of elapsed time
- Your goal during the week is to complete the tasks set forth on your “Lifecard”
- There are consequences for failing to complete the assigned tasks for the week
- After each week, there will be a de-briefing, lead by our facilitator. A final de-briefing will take place after week four
- Once the alarm goes off to end the week, you must return to your “home” (chair)
