What are some current issues affecting your particular state in the processing of intergovernmental cases? What's new & interesting in your state regarding interstate?

What are some of the changes implemented in your state as a result of the pandemic? (Include if they are permanent or temporary.) Changes to work environment? Changes to case processing?

What should other states know about your state that may be unique or different regarding how you process intergovernmental cases?

In monitoring & managing cases, what has worked for you and what has not worked for you?

What is the top reason, in your opinion, that causes a breakdown in intergovernmental case activity? How can we improve communications and reduce two state actions?

Can you each offer one or two best practices or practical tips that your office has found for processing intergovernmental cases? Do you have any closing remarks?

THANK YOU!
